Rishabh Nigam

Software Developer

I am a skilled Java Backend Developer with 3+ years of experience in developing and delivering high-quality software solutions using Java/J2EE technologies, I am seeking a challenging role where I can utilize my strong technical expertise in Spring, Hibernate, Restful APIs, Microservices, SQL, NoSQL, and Agile methodologies. With excellent problem-solving and communication skills, I am committed to delivering robust and scalable solutions that meet client expectations and business requirements.
